SUNBRELLA FABRICS

Outdoor fabrics made from acrylic fibers are strong. It is more resistant to both weather conditions and usage errors such as mold, friction and tearing. This is especially important for outdoor flooring in active residential and commercial applications. Before weaving, acrylic fabric threads are dyed with the solution. This allows the fabric to retain its color longer, even when exposed to direct sunlight. In addition to its water repellency, acrylic fabrics are more breathable than other options and allow the fabric to stay cooler in hot weather. It is also easy to clean with soap and water.

So, Acrylic fabrics are a multi-purpose textile product that should be preferred in outdoor furniture. Sunbrella acrylic fabrics are considered premium for outdoor textiles. Sunbrella is long-lasting compared to its counterparts and therefore provides long-term savings. If you especially care about UV protection, the best choice would be Sunbrella products.

Cleaning and Using Instructions

Brush off any loose dirt or debris from the surface of the fabric using a soft-bristled brush.

Apply a solution of water and mild soap to the fabric with a sponge or soft cloth.

Gently scrub the fabric in a circular motion, taking care not to rub too hard.

Rinse the fabric thoroughly with clean water, ensuring that all soap residue is removed.

Allow the fabric to air dry completely before use.

Machine wash the fabric in cold water using a mild detergent on a gentle cycle.

Do not use bleach or fabric softeners, as these can damage the fabric and affect its water-resistant properties.

If ironing is necessary, use a low heat setting and a pressing cloth to avoid direct contact with the fabric.

Avoid exposing the fabric to prolonged periods of direct sunlight, as this can cause fading and damage to the fabric.

Protect the fabric from harsh weather conditions, such as rain, snow, and extreme temperatures, by covering it with YAAZ covers or storing it indoors when not in use.

Avoid using harsh chemicals, bleach, or fabric softeners, as these can damage the fabric and affect its water-resistant properties.

If the fabric becomes wet, allow it to air dry completely before use to prevent mold and mildew growth.

Regularly inspect the fabric for any signs of damage or wear, such as tears or fraying, and address any issues promptly to prevent further damage.
