Product Details

ALUMINUM

Most Popular Metal

more detail visit pg.2

OLIVE GREEN

Aluminum is a light weight and strong metal with an excellent strength-to- weight ratio and corrosion resistance. These properties make it an ideal material for outdoor furniture. Although aluminum is the most popular material for outdoor furniture, despite being light weight, it is durable and can be easily processed into various complex shapes.

PAVEMENT

The Limitlessness of Nature

ALUMINUM

Aluminum is a light weight and strong metal with an excellent strength-to- weight ratio and corrosion resistance. These properties make it an ideal material for outdoor furniture. Although aluminum is the most popular material for outdoor furniture, despite being light weight, it is durable and can be easily processed into various complex shapes. While it is extremely weather-resistant on its own, it is recommended to be coated with polyester electrostatic powder for added protection against the elements and scratches, as well as to add color to the product. Since the electrostatic powder paint adheres better to the metal, it also makes the product much more resistant to fading. As with other metals, aluminum can warm up or cool down depending on weather conditions, so it is recommended to use it with a cushion for comfort.

Cleaning and Using Instructions

For regular cleaning, wipe the aluminum furniture with a soft cloth or sponge and a mild detergent solution.

To remove any stains or grime buildup, use a non-abrasive cleaner and a soft-bristled brush.

Avoid using steel wool or abrasive cleaners, as these can scratch the surface of the aluminum.

Rinse the furniture thoroughly with clean water and wipe it dry with a clean, dry cloth.

For extra protection, apply a coat of car wax to the aluminum surface. This will help to protect the furniture from the elements and keep it looking new.

Do not place heavy objects on the aluminum furniture, as this can cause dents or damage to the surface.

Avoid dragging the furniture on rough or uneven surfaces, as this can scratch the aluminum.

Do not expose the furniture to extreme weather conditions, such as heavy rain or extreme heat. If possible, store the furniture indoors or under a protective cover when not in use.

If the furniture becomes hot in direct sunlight, allow it to cool down before using it.

By following these cleaning and usage instructions, you can help ensure that your aluminum furniture stays in good condition for many years to come.

PAVEMENT

High-strength terrazzo plates produced with the highest quality natural stones.

A first-class appearance is obtained with homogeneous color and aggregate distribution on large surfaces.

Pavement plates provide wide possibilities for different designs in spaces with the resistance to color fading and unlimited color and a wide variety of dimensions, especially for outdoor use.

Cleaning and Using Instructions

Simply using a damp cloth is enough to clean our terrazzo products.

Cleaning materials with chemicals can cause the surface polish to wear off over time and reduce its protective effect.

Avoid exposing the furniture to extreme temperatures, such as direct sunlight or freezing temperatures.

Do not use abrasive materials or harsh chemicals when cleaning the furniture, as they can damage the terrazzo surface.

To prevent scratches or chips, avoid dragging heavy objects across the surface of the terrazzo.

Consider covering with YAAZ cover, the furniture during prolonged periods of non-use, such as during the winter months or when you are away on vacation.

Regularly inspect the furniture for any signs of damage or wear, and address any issues promptly to prevent further damage.
