YAAZ

COLLECTION: OVA
PRODUCT: COFFEE TABLE ROPE (Code: Ova.32)

BY YAAZ LAB + ANGELETTIRUZZA DESIGN | 2021

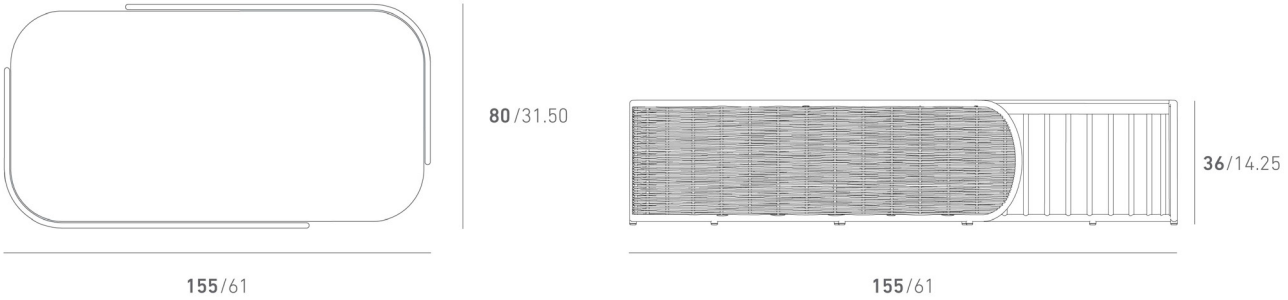

Product Specifications

Width	155 cm / 61'' in
Depth	80 cm / 231.50'' in
Height	36 cm / 14.25'' in
Weight	83 kg / 183 lbs
Primary Materials	Aluminium, Ment, Rope

Product Overview

Sculptural elegance meets outdoor resilience.
Defined by soft, organic contours and an architectural slatted silhouette, the Ova Coffee Table brings effortless sophistication to both outdoor and indoor lounge spaces.
At its core, a precision-crafted aluminum frame provides exceptional structural integrity while remaining lightweight and naturally resistant to corrosion. The rhythmic vertical slats create a dynamic interplay of light and shadow, lending an airy visual presence to a grounded, functional center table.

Customize your table to complement your aesthetic with two premium surface options:
Ment: An expertly crafted composite surface, distinguished by its rich texture and contemporary character.
Natural Ceramic: A sleek, high-performance surface celebrated for its organic tone, non-porous structure, and superior resistance to scratches, heat, and UV exposure.

Aluminium

Aluminium is a light and strong metal with excellent strength-to-weight ratio and corrosion resistance. These properties make it an ideal material for outdoor furniture. Despite its light weight, aluminium is durable and is coated with polyester electrostatic powder coating for added protection against knocks and scratches and to add colour to the product. As the powder coating adheres better to the metal, it also makes the product much more resistant to fading. JOTUN and Akzo Nobel branded powder coatings are used in YAAZ aluminium products.

JOTUN powder coatings used in YAAZ products have been tested against high amounts of UV radiation and strong winds. In addition, powder coatings have been tested in some of the hottest, most humid and corrosive environments in the world, such as Southeast Asia and the Middle East.

Cleaning and Using Instructions
Over time with exposure to the elements, powder coatings may show signs of weathering such as loss of gloss, chalking and slight colour change. A simple regular clean will minimize the effects of weathering and will remove dirt, grime and other build-up detrimental to all powder coatings.
For any particular region or territory, there may be local regulations or local requirements to be met in order to achieve conformance to certain published quality labels or standards. It is the users' responsibility to be aware of such standards.
Failure to comply with the recommended cleaning schedule will nullify anywarranties.
Cleaning should start at the time the products are installed, ensuring that construction materials such as concrete, plaster and paint splashes are removed before they have a chance to dry. Failure to remove these materials at this early stage will require the use of aggressive cleaning materials and techniques with potential damage to the powder coated surface.
Best cleaned by regularly washing the coating using warm water and a non-abrasive, pH neutral detergent solution. Surfaces should be rinsed thoroughly after cleaning to remove all residue. All surfaces should be cleaned using a soft cloth or sponge or something harder than a soft natural bristle brush.
If the project is subject to any hazardous unusual environmental factors, or is close to salt water, an estuary or marine environments then YAAZ must be consulted on an individual project basis.
Renovation can be required in the case of heavy soiling (due to lack of maintenance).
In no circumstance should any abrasive cleaner or polish, or any cleaner containing ketones, esters beused.

Aluminium COLOR OPTIONS

YAAZ aluminum products are manufactured from 7000 series aluminum alloy, and their surfaces are coated with Jotun-brand antistatic powder coating.

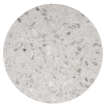

Ment

High-strength ment plates produced with the highest quality natural stones. A first-class appearance is obtained with homogeneous color and aggregate distribution on large surfaces. Ment plates provide wide possibilities for different designs in spaces with the resistance to color fading and unlimited color and a wide variety of dimensions, especially for outdoor use.

Cleaning and Using Instructions
Simply using a damp cloth is enough to clean ment products.
Cleaning materials with chemicals can cause the surface polish to wear off over time and reduce its protective effect.
Avoid exposing the furniture to extreme temperatures, such as direct sunlight or freezing temperatures.
Do not use abrasive materials or harsh chemicals when cleaning the furniture, as they can damage the terrazzo surface.
To prevent scratches or chips, avoid dragging heavy objects across the surface of the ment.
Consider covering with YAAZ cover, the furniture during prolonged periods of non-use, such as during the winter months or when you are away on vacation.
Regularly inspect the furniture for any signs of damage or wear, and address any issues promptly to prevent further damage.

YAAZ Ropes

YAAZ's synthetic outdoor rope and band collection combines durability, performance and refined design. Developed with specialized additives and pigments, the yarns offer high resistance to UV exposure and varying weather conditions, along with excellent colourfastness and strength.
A carefully curated colour palette complements YAAZ's aluminium frame finishes, offering versatile combinations and a cohesive design approach. Designed for outdoor environments, the collection brings a distinctive aesthetic to contemporary outdoor furniture.

Cleaning and Using Instructions

Regularly dust the rope with a soft cloth or soft-bristled brush to remove loose dirt and debris.
Clean with mild soap and warm water, gently scrubbing with a soft-bristled brush.
Rinse thoroughly with clean water and allow to dry completely before use.
Avoid harsh chemicals and abrasive cleaners to prevent damage and discoloration.
Do not exceed the manufacturer's specified weight capacity.
Avoid dragging or scraping the furniture on hard surfaces to prevent damage to the rope and frame.
Avoid exposure to extreme weather conditions, such as heavy rain and high winds.
When not in use, store indoors or protect with a YAAZ cover to extend the furniture's lifespan.
